THE
AMERICAN
Military Pocket Atlas ;

BEING

An approved Collection of Correct MAPS,

BOTH GENERAL AND PARTICULAR,

OF

THE BRITISH COLONIES;

Especially those which now are, or probably may be

THE THEATRE OF WAR :

Taken principally from the actual Surveys and judicious Observations of Engineers DE BRAHM and ROMANS; COOK, JACKSON, and COLLET; Maj. HOLLAND, and other Officers,

EMPLOYED IN

HIS MAJESTY'S FLEETS AND ARMIES.

L O N D O N

Printed for R. SAYER and J. BENNET, Map and Print-Sellers,
(No. 53) Fleet-street.

T O

Gov. P O W N A L L,

MEMBER OF PARLIAMENT, F.R.S.
AND F.A.S. &c.

S I R,

AS we undertook this Work for the use of the Military Gentlemen at your recommendation, we cannot but hope that the avowed patronage, of a person so well informed in Geography, and having such a particular knowledge of the country of North America, may recommend it to the public ; we therefore presumed to dedicate it to You. To You we owe our just acknowledgments for having enabled us to rectify former mistakes, to offer details hitherto unknown, and to collect a very great variety of interesting objects, within a moderate compass. Notwithstanding our utmost assiduity and attention to compleat your idea ; we have still reason

A 3

to

to wish this work could have been rendered more worthy of your patronage and acceptance, and that it might shew in a manner adequate to our wishes, the respect and gratitude with which we have the honour to be,

S I R,

YOUR MOST HUMBLE

AND DEVOTED SERVANTS.

Fleet-street, 1776.

THE EDITORS.

SURVEYS and Topographical Charts being fit only for a Library, such Maps as an Officer may take with him into the Field have been much wanted. The following Collection forms A PORTABLE ATLAS of NORTH AMERICA, calculated in its Bulk and Price to suit the Pockets of Officers of all Ranks.

It consists of a GENERAL MAP of that Part of the Globe, called NORTH AMERICA, and of a Second GENERAL MAP OF THOSE ISLANDS, Shores, Gulfs, and Bays, which form what is commonly called the WEST INDIES; these we consider as Introductory, and as giving a General Idea, and we trust a just one. The next three Maps, which divide the Continent of *North America* into the *Northern*, *Middle*, and *Southern*, *British Colonies* form the Body of this Work.——The First is copied from the Maps and Surveys which have been published under the Protection of the ADMIRALTY and BOARD OF TRADE. The Maritime Parts of *Canada*, *Nova Scotia*, and *New England*, have been adjusted by Major HOLLAND from his astronomic Observations, and the interior Parts have been carefully corrected from Governor POWNALL's late Map.——The Second, being the Provinces of *New York*, *New Jersey*, *Pensylvania*, and *Maryland*, have been collated with, and corrected by Governor POWNALL's late Map; and as nothing has yet been found, or can be more exact than Messrs. FRY and JEFFERSON's Survey of VIRGINIA, in those Parts this Map is copied from that, with the Addition of Governor POWNALL's late Improvements.——The Third Map

Map of the *Southern Colonies* is projected in the greatest Part from Actual Surveys, in others from Journals, as laid down by Persons perfectly knowing in the Topography of the respective Countries, by Messrs. COLLET, DUNBIBEN, COOK, DE BRAHM, and others. The Coasts of *East and West Florida*, and the *Gulf of Florida*, are adjusted by the very curious Nautical Surveys of Engineer ROMANS. This Map will be found to have a very particular Degree of Geographical and Topographical Merit——As the Lakes *Champlain* and *George* form the Main Pass between the Maritime Colonies and *Canada* we have added, as an Appendix to this Collection, a particular Map of these Parts done from Actual Survey.

L I S T of the M A P S.

- 1 **N**ORTH America.
 - 2 The West Indies.
 - 3 The Northern Colonies.
 - 4 The Middle Colonies.
 - 5 The Southern Colonies.

NORTH AMERICA,

AS DIVIDED
amongst THE EUROPEAN POWERS.

By
SAMUEL DUNN,
Mathematician.

London: Printed for Robt. Sayer, A75 in Fleet Street,
at the 'Red Lion' in 1771.

A COMPLETE MAP
OF THE
WEST INDIES,
Containing
THE COASTS OF FLORIDA, LOUISIANA,
NEW SPAIN, and TERRA FIRMA:
WITH
ALL THE ISLANDS.

By
SAMUEL JOHNSON,
Mathematician.

London, Printed by C. Batham, A. Alden, & J. Smith, in the Strand, in January 1754.

Scale in Degrees

English Miles 60 in a Degree

NOTE. This Map is drawn on the Mercator's Projection, and is intended to be used by Mariners, who are to be directed by the Compass, and not by the Sun, or Stars, or other Astronomical Observations. It is therefore, not intended to be used by Landmen, who are to be directed by the Sun, or Stars, or other Astronomical Observations. It is therefore, not intended to be used by Landmen, who are to be directed by the Sun, or Stars, or other Astronomical Observations.

A GENERAL MAP OF THE
MIDDLE BRITISH COLONIES
IN AMERICA.
containing VIRGINIA, MARYLAND, THE DELAWARE, & PENNSYLVANIA, AND NEW JERSEY.
With the addition of NEW YORK, and the Grants Part of NEW ENGLAND
and the Bank and Parts of THE PROVINCE OF QUEBEC.
improved from several Surveys made after the late War.
in 1761
from COMPTON'S 7th Edition, 1770.

London Printed by R. S. Aitken, at the Sign of the Sun in Pall-mall, 1770.

A GENERAL MAP OF THE
SOUTHERN BRITISH COLONIES
IN AMERICA.
comprehending
NORTH and SOUTH CAROLINA,
GEORGIA,
EAST and WEST FLORIDA,
with the NEIGHBOURING INDIAN COUNTRIES.
From the Modern Surveys of
Engineers Brahm, Capt. Collet, Mouton & Others;
and from the Large Hydrographic Survey of the Coast
of East and West Florida,
By B. ROMANS,
1776.

A SURVEY OF LAKE CHAMPLAIN, including LAKE GEORGE CROWN POINT AND ST. JOHN.

Surveyed by Order of

HIS EXCELLENCY MAJOR GENERAL S^r JEFFERY AMHERST,

Knight of the most Hon^{ble} Order of the Bath,

Commander in Chief of His Majesty's Forces in North America,

(now LORD AMHERST)

By

WILLIAM BRASSIER DRAUGHTSMAN.

1762.

Scale of Miles.

These are the distances between the several places.

Crown Point 45° 50' 7" N
More Point 45° 0' 0" N

OBSERVATIONS.

Lake Champlain is called by the Indians *Champlain*, by the French *Lac des Montagnes*, and by the English *Lake George*. It is situated in the Province of New York, and is the most fertile and fertile of the country. It lies in a deep narrow channel of the Lake, and is called the Waters Edge with steep Mountains on the Western Shore, which continue thus to the North West, and the Shore is low, and in many parts swampy. Many Streams, some of which, but times to an abundance of Waters, fall into this Lake, on the West Side, but they cannot be called Rivers, they are small, and are covered with Rocks and Sand, there is no entrance to them.

The Eastern Shore is formed by a low Swampy Tract of Land, the Mountains keep off at the distance of about 12 Miles. There are some considerable Streams which fall into the Lake on this Side. After Creek is the Largest. The Soundings of the Lake are very deep in general, in many places 20, 30, and 40 and in some parts 100 Fathoms.

These are the Soundings of the Lake.

A. Engagement of the 15th of October.
B. The various valleys, several of them
are wonderful, rich in wheat.

Crown Point is situated on the Eastern Shore of the Lake, and is the most fertile and fertile of the country. It lies in a deep narrow channel of the Lake, and is called the Waters Edge with steep Mountains on the Western Shore, which continue thus to the North West, and the Shore is low, and in many parts swampy. Many Streams, some of which, but times to an abundance of Waters, fall into this Lake, on the West Side, but they cannot be called Rivers, they are small, and are covered with Rocks and Sand, there is no entrance to them.

A PARTICULAR PLAN OF LAKE GEORGE.

Surveyed in 1756.

By CAP^t JACKSON.

Scale of Miles.

OBSERVATIONS.

Lake George is situated in the Province of New York, and is the most fertile and fertile of the country. It lies in a deep narrow channel of the Lake, and is called the Waters Edge with steep Mountains on the Western Shore, which continue thus to the North West, and the Shore is low, and in many parts swampy. Many Streams, some of which, but times to an abundance of Waters, fall into this Lake, on the West Side, but they cannot be called Rivers, they are small, and are covered with Rocks and Sand, there is no entrance to them.

These are the Soundings of the Lake.
